

# Baptiste Meurant

 45 years  Experience time: 19 years

## Technical Director / CTO, Architect, Senior Tech Lead

With a background as a **full-stack developer** and experienced **software architect**. I currently serve as a unit **Technical Director** at Worldline. I support teams, projects, and organizations in defining and executing their technical strategy and transformation. Strongly committed to **software craftsmanship principles**, I thrive in roles that combine **technical leadership** and **hands-on expertise** to drive **innovative projects** and contribute to the **growth of an organization**.

### SKILLS

#### LEADERSHIP & TECHNICAL MANAGEMENT

Technical Strategy, Tech Leadership, Transformation Initiatives, Cross-functional Project Oversight, Team Management, Training & Mentorship, Budget Ownership, FinOps Practices, Communication, and Pre-sales Engagement.

#### ARCHITECTURE & METHODOLOGIES

Software and Platform Architecture, Agile Practices, Cloud & DevOps, RESTful Design, Clean Code Principles, CI/CD Pipelines, Automation, Infrastructure as Code (IaC), Extensible Design, Code Quality, Performance Optimization, Scalability.

#### CORE TECHNOLOGIES

Java and its ecosystem, Spring Framework and related tools, JPA and Hibernate, SQL and database management, JavaScript and its ecosystem, Ember.js, HTML, CSS, Sass, and Git.

#### OTHER TECH SKILLS

Infrastructure & Production, observability and monitoring, containerization, NoSQL, Linux, security, open-source.

#### CERTIFICATIONS

SAFe - Scaled Agile Framework (2019), GCP Cloud Digital Leader (2024)

### WORK EXPERIENCE

#### Technical Director

 Worldline

**MeTS Trusted Services Division** ~200 projects, ~1000 people, 12 direct reports

**MTS France division** ~250 projects, ~1500 people, 12 direct reports

**Ministries & Administrations division** ~20 projects, ~200 people, 3 direct reports

My role, along with my team, is to support and enable the operations, growth, and transformation of the division.

- **Technical and strategic leadership**, responsible for defining architectural and methodological guidelines and ensuring the overall **technical consistency** of delivered solutions. Driving the **Cloud transformation** journey, from initial strategy to industrialized execution.
- Accountable for the implementation and rollout of **engineering and operational standards**: software **quality**, **observability**, **security**, technical debt management, and more. Leading **continuous improvement** initiatives through tools, frameworks, and KPIs.
- Hands-on involvement in key strategic projects as **developer, expert, or architect**, ensuring technical **feasibility**, **performance**, and **scalability** of services.
- Design and rollout of a **shared technical foundation**, publication of reference guides, and organization of internal communications: webinars, knowledge sharing sessions, and feedback loops. Development and maintenance of a **unified tool for technical governance across all projects**.
- **Coaching, mentoring, and training** of technical teams, with a strong focus on upskilling and nurturing a culture of engineering excellence.
- Conducting both **technical and financial assessments** of projects, driving **optimization** plans, supporting **FinOps** practices, and rationalizing Cloud infrastructure usage.
